

SCI Solutions Achieves HITECH Certification of Schedule Maximizer® Version 34

Campbell, CA, January 9, 2012—[SCI Solutions](#) today announced that in December 2011 it received the federal government's meaningful use HITECH Certification for the latest version of Schedule Maximizer®, its powerful, rules-based, community-wide scheduling solution. The Office of the National Coordinator for Health Technology (ONCHIT) HITECH modular certification designates that Schedule Maximizer® v34 supports providers with meaningful use measures qualifying them for funding under the American Recovery and Reinvestment Act (ARRA).

About SCI Solutions

SCI's patent-protected revenue management solutions enable clients to increase revenue and cash flow, optimize resources and physician referral patterns all while improving patient satisfaction. SCI's advanced rules and workflow engines strengthen alignment with both employed and independent community providers, achieving secure clinical and financial information exchange among providers regardless of their EMR vendor, technology or level of automation.

SCI's Clinical Integration Engine™ intelligently orchestrates patient care across communities based on condition, episode and population health — aligning reimbursement with clinical appropriateness and compliance. This level of rich electronic and economic integration with community providers, patients and plans leads to market advantages and other quantifiable benefits including:

- Incremental referrals/orders from non-employed community physicians;
- Reduced out-of-network revenue leakage;
- Lower re-admission rates by electronically integrating patient discharge management, ordering, scheduling and follow up patient compliance; and
- Fewer health plan denials and underpayments through verification of medical necessity, authorization and additional front-end revenue management checks.

Founded in 1999, SCI is headquartered in Campbell, CA, with professionals throughout the United States and additional offices in Atlanta, Pensacola, Seattle and Tucson. For more information about SCI Solutions visit www.scisolutions.com.
