

SCI Solutions Unveils Arrival Manager™ Kiosk

Access Management Vendor Adds Self-service Kiosk to Product Offerings

Los Gatos, CA – March 8, 2011 – SCI Solutions®, the premier Access Management solution provider for healthcare, today announced the first release of its Arrival Manager™ kiosk as a complement to its existing suite of advanced, web-based Orders Processing and Enterprise Scheduling, Revenue Cycle and Self-Service (Provider and Consumer) portal products. SCI provides a complete suite of Access Management products that facilitate the patient access continuum from online orders through scheduling through pre-registration and revenue cycle functions to the point of check-in.

SCI's Arrival Manager kiosk, through a partnership with DynaTouch (a provider of world-class kiosk solutions since 1988) expands the functional capabilities of Schedule Maximizer®, SCI's award-winning, web-based scheduling solution. SCI will provide Arrival Manager fully integrated with the other SCI products or on a standalone basis. Utilizing Schedule Maximizer's revenue cycle platform, Arrival Manager delivers advanced on-site patient check-in and registration capabilities such as ID card swipe, patient demographic and insurance validation and update, insurance card scanning, document review and signature, wayfinding and a robust variety of kiosk options to best meet a healthcare facility's requirements.

Over the last 10 years, SCI has excelled at successfully integrating our solutions with over 400 hospital HIS and ancillary systems. SCI brings a wealth of integration experience and robust integrated platform to take the risk out of interfacing Arrival Manager to a healthcare organization's registration and scheduling systems.

According to John Holton, President and CEO, SCI Solutions, "The healthcare industry is under continual pressure to reduce administrative and labor costs while improving the quality of care and increasing customer service. Self-service kiosks improve customer satisfaction and reduce healthcare delivery costs." He continued, "SCI is thrilled to provide the Arrival Manager kiosk solution in conjunction with our other advanced self-service applications that are scalable, proven and integrated to meet the needs of the technically savvy healthcare marketplace."

About SCI Solutions

SCI Solutions is transforming healthcare Access Management with web-based products and services that facilitate the efficient and secure exchange of clinical and financial information between patients, physicians and healthcare facilities. SCI provides a variety of products and self-service portals that help physicians and patients interact easily and at their convenience for many of their access-related needs. From a hospital's clinical departments, to its financial executives, to its physicians SCI improves their effectiveness while making the patient's service experience first class.

Founded in 1999, SCI Solutions is headquartered in Los Gatos, CA with additional offices in Tucson, AZ, Pensacola, FL and employees throughout the United States. For more information about SCI Solutions visit www.scisolutions.com.
