

SCI Solutions Completes Fiscal Year with Record New Contract Sales

Web-based Access Management Company Hits Milestone Customer

Los Gatos, CA – December 1, 2008 – SCI Solutions, the [premier Access Management solution](#) provider for healthcare, today announced it has completed its 2008 fiscal year with another record-setting sales period. SCI Solutions signed 46 new customer contracts representing 63 hospitals, for its award-winning Access Management Solutions: [Order Facilitator®](#), [Schedule Maximizer®](#) and [Revenue Cycle Management](#). Schedule Maximizer is an Internet-based, enterprise Access Management solution that combines sophisticated workflow technology to streamline a hospital's complex patient and resource scheduling requirements. Order Facilitator is an Internet-based, web solution for automating outpatient orders for hospital services from community physicians.

With its signing of [Baptist Health South Florida \(BHSF\)](#), Miami, Florida, SCI Solutions has reached its milestone 300th customer. BHSF joins the growing number of SCI customers, which range from rural healthcare facilities to large health networks and academic medical centers, large scale providers, oncology specialty centers and children's hospitals that have made a commitment to transforming their patient access and revenue cycle processes to provide better service levels for both patient and providers.

"SCI Solutions is pleased to announce continued record-breaking customer and financial growth," stated John Holton, CEO. He added, "SCI's savvy customer base understands that in order to thrive in today's environment, they must offer innovative healthcare access and revenue cycle technologies that will improve the overall standard of patient care without increasing the time and cost associated with that care."

About SCI Solutions

[SCI Solutions](#) is transforming healthcare Access Management with products and services that facilitate the efficient and secure exchange of clinical and financial information between patients, physicians and healthcare facilities.
