

SCI Solutions Launches New Version of Schedule Maximizer (v33)

Access Management Vendor Enhances Rules-based Enterprise Scheduling, Expands Insurance Verification functionality, Simplifies pre-registration processes

Los Gatos, Calif. – July 28, 2010 – SCI Solutions®, the premier [Access Management solution provider](#) for healthcare, today announced the release of a new version (v33) of its powerful, rules-based, enterprise scheduling solution, [Schedule Maximizer®](#).

Schedule Maximizer (v33) features numerous updates, including enhanced scheduling functionality that incorporates insurance verification/eligibility rules affecting consumer driven health plans. The revamped Encounter Module, Multi-entity Rules and Worklist features further simplify and streamline a hospital's pre-registration/registration processes.

Additionally, Schedule Maximizer's reporting capabilities have been expanded to include a new report that provides the total number of patients that are scheduled for a particular date or date range. This report is a quick and efficient method to assist in Registration clerk staffing needs for a facility and/or a particular location/clinic in that facility.

According to Kristy Roesner, SCI's SVP of Product Development, "The enhancements in Schedule Maximizer (v33) reflect SCI's position as innovators in the Healthcare Information Technology arena." She continued, "We are proud of this version's updates as they represent significant enhancements that expand its overall capabilities as an insurance verification and pre-registration process improvement tool."

SCI Solutions, through its Software as a Service (SaaS) model, provides a full complement of front-end patient access and revenue cycle tools that include comprehensive enterprise scheduling and registration, sophisticated workflow to manage a hospital's orders, scheduling and pre-encounter revenue cycle requirements. Additionally, SCI provides customer self-service solutions that help physicians and patients interact seamlessly with your organization for all their access-related needs. SCI's Access Management offerings fall into the following categories:

- Order Facilitator®
- Schedule Maximizer®
- Revenue Accelerator®
- Consumer Portal
- Provider Portal
